Concrete Materials & Finishes

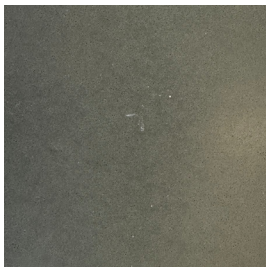

Stone

A rich, warm taupe featuring prominent dark and light speckling that closely mimics natural granite. It offers a rugged, earthy character ideal for both transitional and classic landscape designs.

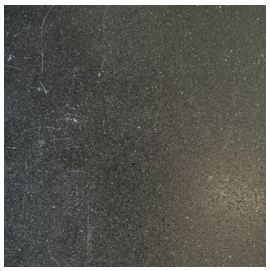

Cream

A warm, inviting neutral characterized by subtle, fine-grained speckling. It provides a soft, natural look that seamlessly integrates with surrounding softscapes and traditional architecture.

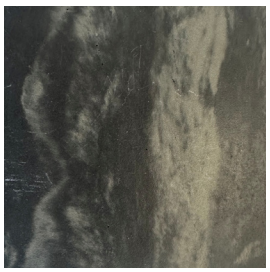

Natural Gray

A clean, classic mid-tone gray with minimal texture and faint speckling. This versatile, minimalist finish acts as the perfect architectural anchor for contemporary commercial environments.

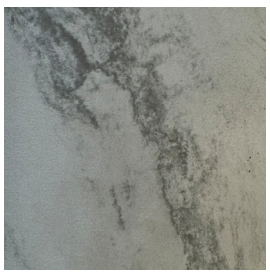

Raven

A bold, dark charcoal finish highlighted by dense, contrasting light speckling. This high-contrast colorway adds profound visual depth and a sleek, modern edge to high-traffic areas.

Smoke

This dramatic, deep-toned finish features striking, organic light marbling across its surface. It delivers a dynamic, natural stone aesthetic that brings upscale sophistication to modern site designs.
Only available on tabletops.

White Onyx

An elegant, bright finish defined by its light base and sweeping, dark organic veining. This premium option elevates public spaces with a sophisticated, luxury-stone appearance.
Only available on tabletops.
